

# AHMED JAMMOUSSI

Software Engineering Student

✉ ahmed.jammoussi@insat.ucar.tn    a\_jammoussi    Ahmed Jammoussi

---

## SUMMARY

Motivated and dedicated IT student seeking opportunities to gain practical experience. Strong theoretical foundation in algorithms, and data structures, coupled with a passion for continuous learning. Eager to acquire real-world skills in a dynamic and collaborative environment.

---

## PROJECTS

**Website for Woody Startup ([www.woodyplastics.tn](http://www.woodyplastics.tn))** April 2024

- Crafted a visually engaging static website to showcase the brand's identity.
- Ensured seamless adaptability across various devices.
- **Technologies:** HTML, CSS, JavaScript, Express JS

**School Management Platform** April - May 2024

- Developed a native PHP web application that facilitates student access to schedules and course information, enables teacher management of student absences, and provides administrative oversight with comprehensive school statistics.
- Migrated to the Symfony framework for enhanced functionality and scalability.
- **Technologies:** HTML, CSS, JavaScript, ChartJS, MySQL, PHP, Symfony

**Vulnerability Scanner Web Application** (Ongoing)

- A web application that can identify potential security vulnerabilities and recommend robust solutions for enhanced protection.
- **Technologies:** Flask, SQLite, SQLAlchemy, NMAP

---

## EDUCATION

**2nd Year in Software Engineering** Sep 2022 - Present  
INSAT - National Institute of Applied Sciences and Technology Tunis, Tunisia

**Baccalaureate in Mathematics** June 2022  
Lycée Pilote de Sfax Sfax, Tunisia

---

## EXTRACURRICULAR EXPERIENCE
